Brief Description of the Drawings

Figure 1 is a block diagram showing one possible network configuration used in implementing the present invention, according to specific embodiments.

Figure 2 is a process flow diagram illustrating selecting an optimal server according to specific embodiments.

~~Figure 3A and 3B are diagrams~~ <u>Figure 3 is a diagram</u> depicting arrangements of metric priorities and significance windows, according to specific embodiments.
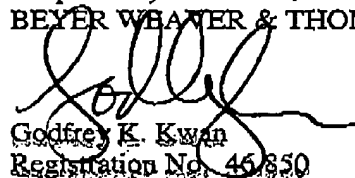

Figure 4 shows a network node suitable for implementing the present invention, according to specific embodiments.

REMARKS

The amendment to the Brief Description of the Figures is being made to reflect the correct drawing identification in the background and specification of the application. The drawings submitted reflect Figure 3 and the application supports reference to only a Figure 3 and not to Figures 3A and 3B. The amendments are to correct a typographical error.

Applicants hereby respectfully request that on recommendation of the Examiner and approval by the Director that this amendment be entered. If there are any questions with regards to this matter, please do not hesitate to contact at us at the number below.

Respectfully submitted,
BEYER WEAVER & THOMAS, LLP
